ROSÉ SPARKLING. COCKTAIL-READY. BOTTLE-SERVICE READY.

Méthode traditionnelle. Dry. Pale salmon. Built for the Phuket sun.

A premium rosé sparkling that sits in the gap your wine list keeps asking about: **drier than Prosecco Rosé, softer than Champagne, priced below both.** Designed to pour by the glass without bleeding margin and to hold its own as a bottle on a sunset table.

Tasting (Brut): pale salmon, fine bead, red berry and white peach on the nose, citrus pith and brioche on the palate, dry finish with mineral lift.

WHY IT WORKS FOR YOUR PROGRAM

Cocktail base that doesn't fight the build

Clean acidity, low residual sugar — works in spritzes, French 75 variants, sparkling sangria and welcome cocktails without throwing the balance.

Bottle service that travels

Pale salmon colour photographs well in the sun. Cork-and-cage presentation reads premium on a beach-club table or yacht ice bucket.

By-the-glass economics

Wholesale per-bottle cost lands ~20–30% below comparable Prosecco DOC and well below Champagne. A 150 ml pour holds margin even at promotional menu prices.

Méthode traditionnelle, not tank

Secondary fermentation in bottle — finer mousse, longer hold in the glass, closer to Champagne texture than to Prosecco.
